To find the correct size inserts for your planner or agenda, follow these instructions. First, find the last page of your Planning Diary. In the case of wirebound inserts, it will be the last page of the Planning Diary. In the case of punched, loose-leaf inserts, it will be the last loose page of the planning diary section.

Look for the size printed on that page. Most of our inserts will have the size printed at the top of the page. All of your inserts should be the same size as your planning diary. If for some reason, you can't find it printed on this page, measure any page of the planning diary and find the inserts that come closest to those dimensions.
